

**MD:
IMRAN HOSSAIN**

PROFILE

I am Md. Imran Hossain — an experienced website designer and IT trainer, with several years of practical experience in web design, graphics design, Microsoft Office, digital marketing and freelancing. I am directly involved in various training programs to make students skilled for building a technology-based Bangladesh.

I provide hands-on project-based training to students on various types of websites such as e-commerce, business, news portals and portfolio design. In addition, I am also adept at teaching methods and techniques to work in online marketplaces. My training style emphasizes: Depth of content Real-world examples and live practice Step-by-step guidance according to the level of understanding of the students Support in confidence and career preparation I believe that the job of a good trainer is not just to teach, but also to make a student self-reliant.
